

HOLLYWOOD KILLERZ is a punk rock band from Torino, Italy.

Two years after “Dead On Arrival”, they are back with new album “Still Intoxicated”, 12 tracks of blistering punk rock.

The first 7” single “Trash Me” contains a previously unreleased b-side featuring Kevin Preston from Prima Donna on guest vocals.

Despite starting as a glam rock band – as the name may suggests – Hollywood Killerz are an angry punk rock band playing fast, loose, no frills rock’n’roll.

“Still Intoxicated” is not claiming to be the ultimate original album, but one that will appeal to all the disciples of “three chords and the truth”, those who don’t care about fashion and trends and miss bands such as Heartbreakers, Demolition23 and D-Generation.

If you want pure loud street punk, you got it.

Hollywood Killerz may not appeal to everyone: their raw, catchy hooks would however turn on any Michael Monroe or Dogs D'Amour fan. Their down'n'dirty street glam-punk potion is wildly going to scratch your back and make you

beg for more
